Global Training Centre – by Vcom

Dear Madams, dear Sirs,

Our Global Industry Partner Guangdong Vcom Education Technology Co., Ltd. (Vcom) has recently launched a “Global Training Centre” with several different (online and offline) educational courses and learning materials, published and accessible on www.intskill.com with the aim to continuously improve the quality of Vocational Education and Training, globally.

The Global Training Centre is fully recognized and supported by WorldSkills, since its learning resources are developed in collaboration with and participation of WorldSkills’ Skills Competition Managers and based on WorldSkills Occupational Standards.

Currently the Global Training Centre has listed training courses and materials on the above-mentioned online platform for the skills Information Network Cabling, Electrical Installations, Optoelectronic Technology, Industrial Control, and Painting and Decorating. Additional learning resources and materials will be uploaded to the platform gradually. The Global Training Centre has also founded a “Resource Development and Partnership Department” to focus on continuously developing such courses and learning materials.

The Global Training Centre welcomes you to share your valuable opinion or submit requests on skills and technologies and will try their best to fulfil your suggestions and requests.

Regards,

Alexander Amiri

Director Sponsorship and Partnership
